

Certificate of Performance and Diploma Agreement

This agreement is designed to help you and your child understand the complexity, pressure and commitment required to successfully complete exams past 8th grade.

As a guide students typically require 12-18 months to complete a Certificate of Performance program and 18-24 months to complete a Diploma program.

I understand that I am required to complete the following:

- Attend weekly lessons for a minimum of 1 hour (1.25hrs is the average). This is based upon the discretion of the teacher.
- I commit to practising as my teacher recommends for both practise strategy and time commitment.
- Participate in all Fraser Music Studio concerts.
- Participate in eisteddfods in the 6 months prior to my proposed exam date.
- Organise bi-weekly performances at my home or the home of friends and family with adults present in the 4 months prior to my exam date (school concerts with friends are in addition to these concerts).
- I commit to a dress code suitable to a public performance for all concerts and eisteddfods.

I understand I will be required to complete some research and critically listen to professional performances of my program.

I understand the proposed exam period will be at the sole discretion of my teacher and no discussion will be entered into.

I recognise that I have other commitments such as school, university, church, sport, tutoring etc. and to successfully complete my exam I must commit to practising as directed by my teacher.

I recognise that Diploma examinations have a high failure rate and they are considered to be a concert performance standard, not just 9th grade.

I understand if I do not fulfil the requirements as set out in this agreement, my position at the studio may be forfeited.

By signing this agreement I understand my responsibilities and that if I forfeit my position in the studio during the term, as per the terms and conditions, my monies will not be refunded or transferred.
